

ELECTRIC MEDIA STORAGE DEVICE CERIFICATION STANDARDS

- I. **Certification of Electric Media Storage Device Handler and Dog Teams**
 - A. Certification of dog teams shall be limited to current law enforcement personnel only.
 - B. Certifications will be valid for one year from the date of certification.

- II. **Qualified Certification Officials**
 - A. IPCA Executive Board will designate Certification Officials.
Each Certification Official will have a minimum of five years of experience training detection dogs.
From time to time, the IPCA Board of Directors, in its discretion, may waive certain requirements.
 - B. Certification Officials will designate the areas to be tested and will coordinate with the host agency to obtain these areas.
 - C. The certification Official will be responsible for coordinating with the host agency to obtain appropriate training aids to be used in the test procedure.
 - D. The certification Official will be responsible for ensuring all safety precautions are adhered to by all persons involved in the certification process.
 - E. Certification Official will evaluate the following areas during the examination.
 1. Does the canine recognize the target odor?
 2. Does the canine alert/indicate to the target odor?
 3. Does the handler recognize the canine alert/indication?
 4. The working ability of the dog, to include scent recognition and alert/indication.
 5. Overall performance demonstrated by the certifying canine team.
 - F. The Certification Official can terminate the search for cause at any time.

- III. **Canine Testing Area**
 - A. The tests will be set in as practical a manner as possible using 'live' buildings, areas, cars, packages, and baggage.
 - B. The canine team will be tested in four (4) areas:
 1. **Building Search (0-2 Target Odors, maximum of seven (7) minutes)**
 - a. Building search will consist of a minimum of three (3) rooms and a maximum of four (4) rooms.
 - b. Buildings, warehouses, residences or any other structure utilized as a certification site shall be no less than 100 square feet per individual room and shall have furniture or other articles present in the search area.
 - c. A minimum of one (1) room shall have NO target odor (blank).
 - d. The handler may not open cabinet doors, desk drawers, closet doors or move items in rooms unless authorized by the certification official.
 - e. Aids will be placed so that the canine cannot retrieve same.

2. **Vehicle Search (OPTIONAL) (0-2 Target Odors, maximum of seven (7) minutes)**
 - a. The word 'vehicles' as used for the purpose of certification shall include any passenger car, truck, van or any similar type vehicle. During the vehicle search, three (3) vehicles must be present.
 - b. The vehicles will be parked in a configuration so as to allow the team to have easy access to each vehicle.
 - c. Only one (1) aid may be placed on or inside each vehicle with a minimum of one (1) vehicle having NO target odor (blank).
 - d. All aids will be placed in a manner so that the canine cannot retrieve same.

3. **Open Area Search (0-2 Target Odors, maximum of seven (7) minutes)**
 - a. The word 'open area' as used for the purpose of certification shall include the exterior of buildings and/or open fields.
 - b. The search area shall be approximately 1,000 square feet.
 - c. Aids will be placed at the discretion of the Certification Official and can be placed anywhere from surface level, including under ground cover, to a maximum of five (5) feet above surface level.
 - d. All aids will be placed in a manner so that the canine cannot retrieve same.

4. **Packages/Baggage Search (0-2 Target Odors, maximum of seven (7) minutes)**
 - a. Baggage shall be defined as hard- or soft-shell suitcases, attaché cases, clothes bags, briefcases, golf bags, sea bags, duffel bags, and backpacks.
 - b. Packages shall be defined as cardboard boxes, shipping envelopes, paper boxes and envelopes, or Express Mail type envelopes.
 - c. Ten (10) bags/packages minimum with a maximum of twelve (12) bags/packages or a combination thereof shall be used.
 - d. A minimum of eight (8) bags/packages shall have NO target odor placed inside.
 - e. All aids will be placed inside the bags/packages in a manner so that the canine cannot retrieve same.

IV. Detection Substances

- A. The word "aids" shall mean any target odor that is used for testing purposes. All aids used in testing should be stored in separate containers. The detector canine shall be tested on the target odors for which it is trained.
- B. The certification will contain the following aids:
 1. SD cards (minimum of 3)
 - a. May include SD Card-Secure Digital Cards, SDHC Card-Secure Digital high Capacity Cards, SDXC Card-Secure Digital extended Capacity Cards
 2. Micro SD cards (minimum of 5)
 - a. May include CF Card Compact Flash Cards
 3. Cell phones
 4. Flash/thumb drives
 5. External hard drives
 6. SIM cards (minimum of 5)
 7. Other target odors as required.
- C. All aids shall be placed in search areas for at least thirty (30) minutes prior to the first search team starting certification.
- D. A verification of odor will be conducted prior to deployment of the first search team.
- E. No aid shall be placed at an elevation higher than five (5) feet.

- F. All the listed substances will be included in the certification in any combination designated by the Certification Official.

V. Certification Standards

- A. If an aid must be moved to a new location, the previously used area must be removed as a testing site.
- B. The dog shall be able to locate/indicate ALL the previously declared controlled substances which the canine team is attempting to locate/indicate in the test area.
- C. The amounts and weight of each target aid should reasonably simulate what the canine team is likely to encounter during a real deployment. It shall be in the sole discretion of the certification official to determine this factor for each target aid and search phase except as otherwise specified.
- D. Certification requires that the canine team CANNOT miss any aid in any phase of testing.

VI. Alerts

- A. Each handler shall brief the examining certification official as to the dogs' alert and response to aids prior to testing. Each indication to a training aid by the canine should be obvious to the examining certification official. The purpose of the testing is to observe the team's ability to locate a hidden or concealed target odor aid. The discretion as to accuracy of the canine team shall be solely determined by the certifying official.
- B. To cause an official to score a positive find for the detection team, the handler must verbally state 'alert' to the certification official for the alert/indication to be recorded, and to identify the location of the alert.
- C. It should be noted that all aids might not be pinpointed to source due to height, wind current and/or placement of the testing aid.

VII. False Alerts

- A. Any false indication called by a handler may be grounds for certification failure.

VIII. Certification Failure

- A. A detection team who fails to locate/indicate on any one aid during the certification may be tested again the same day if the Certification Official rules that the miss is the handler's error and requires no additional training of the canine.
- B. All other certification failures require the team to reschedule another certification at a later time.
- C. All decisions made by Certification Officials are final.
